### INVITATIONS FOR BOOK REVIEWS

Dear fellow physicians, authors of books on classical homeopathy, you are cordially invited to collaborate with the reviews of your books to be published in “LMHI Spotlight” which is published every 2 months, this with the intention of knowing and having more safe and reliable tools for the study of homeopathic medicine.

Those interested in sharing their book review, please send an email to the editor [andreafloressan@gmail.com](mailto:andreafloressan@gmail.com) with the front and back cover of the book, information about the author, as well as a brief summary that reflects the main content of the book.

## LMHI Work Profile

SECRETARY OF  
EDUCATION

**“As a medical doctor and homeopath in Vienna, my aim is to be a homeopath with a profound medical base”**

## **Exploring Homeopathy: My Personal Journey**

“ AT THAT TIME AS A STUDENT, I WAS ALSO A YOUNG MOTHER OF A SERIOUSLY SUFFERING BABY SON WITH VERY INTENSE EXCEMA. AS CONVENTIONAL MEDICINE HAD NO SATISFIING HELP, I KNEW I NEED TO LEARN SOMETHING ADDITIONAL – TO COMPLETE, SOMETHING THAT WILL OFFER ANOTHER WAY OF TREATMENT OF A DISEASE – OF THE PATIENT.

THIS IS WHERE MY WAY TO HOMEOPATHY STARTED”

Soon I came to know the “SIH” – Student’s Initiative for Homeopathy and felt like in heaven of the medical world listening to lectures of Peter König, who held lectures once a week in General Hospital Vienna at that time – it was “Tuesday evening of happiness” after a day as a medical student. Soon I was within the organising team of the “SIH” and it was a pleasure to meet, organize seminars with famous Homeopaths like Dario Spinedi, Carlos Campora, Paul Herscu, Dr. Alok Pareek and many German and Austrian teachers.

As a Medical Doctor, knowing that Homeopathy must be part of my life, after completing my homeopathic training within the medical doctor’s homeopathic associations in Austria, I was very happy to start working as MD Homeopath in Vienna, Austria. Additionally – to keep me updated with medicine, today I work part time in an outpatient urgency, mainly conventional, but trying to influence, explain – what is Integrative, complementary treatment.

Serving politically for Homeopathy, most of all for education in Homeopathy has been a great pleasure and aim of mine for a very long time – starting at the time of my studies as explained, later being member of the team for further education of AEKH (MD’s association for classical homeopathy), which I am still member in leading position today.

On European level I have been working for the subcommittee Education of the ECH (European Committee of Homeopathy) since 2006 and with great pleasure I had the honour to be the NVP of Austria from 2013 to 2016. I was elected Secretary of Education at the last LMHI congress before Corona – times and at that time we had no idea how Education will change, have to change to survive.

All the schools had to find possibilities to get into contact online with pupils and enable Education under these very difficult conditions. Today we face very different necessities and conditions for homeopathic formation. To integrate them into a high quality formation in Homeopathy is a challenge we work on – also in cooperation with other associations as ECH and Veterinary doctors.

In the LMHI Education Working Group, we especially dealt this last year with an “Exchange programme” between schools of different countries, speaking the same language. The pilot project between Mexico and Argentina was a big pleasure and success. The LMHI started also a “Webinar Project”, first with focus on presentation and improving the quality of case documentation. In between it was decided, that the LMHI will hold 4 webinars each year: 2 webinars still with focus on presentation and case documentation – and 2 webinars with clinical topics.

There will also be a next meeting – ONLINE – on Saturday 6 th of April of the Education Working Group from 2.30 p.m. for one to max. two hours, you can join, peep in and get an impression if working with us for the LMHI could be pleasure for you!

I am very much looking forward to our next LIVE congress in Sevilla in October 2024, where we can meet and discuss personally again!

EDUCATION  
WORKING  
GROUP  
MEETING  
2023*

# *Dr. R. S. Pareek RECEIVES “Padma Shri” AWARD*

Dr. R. S. Pareek has been awarded “Padma Shri” one of the highest civilian honours of India by the President of India on the 75th Republic Day. Many Movie stars and Olympic medalists etc. have also been awarded. He has been awarded for Medicine (Homeopathy). The presentation ceremony will take place sometime In March or April at the Presidential palace (Rastropati Bhawan) wherein the President will give him the medal in the presence of the Prime Minister and other ministers.

The awards are announced each year on the Republic Day and conferred in March.

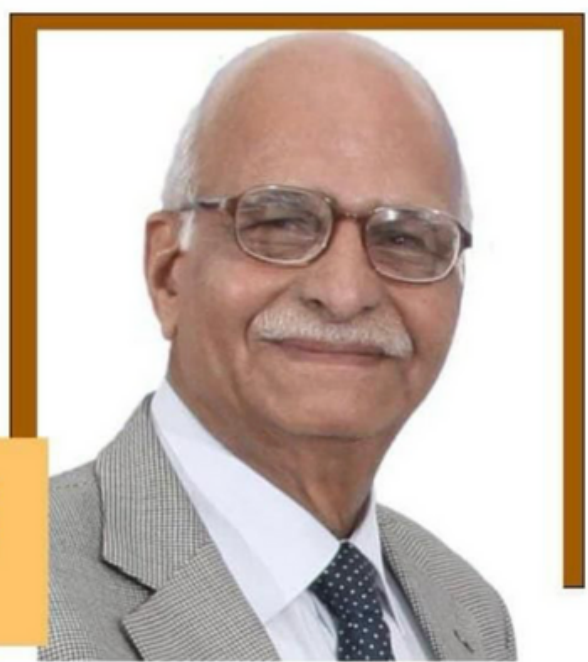

Dr. Aditya Pareek

## *Congratulations*

An inspiration to many  
with a lifetime devoted  
to selfless service.

**DR. R. S. PAREEK**

Field - Medicine

**Awarded Padma Shri by the President of India on 75th  
Republic Day 2024.**

# LMHI EXCHANGE PROGRAM

During 2023, the Education Working Group proposed the possibility of designing an exchange system so that institutions within the LMHI could meet and exchange experiences. Thus, a document with the necessary and suggested requirements and procedures for this purpose was designed.

The objective of the exchanges is twofold: on one hand, to promote collaboration among different institutions, schools, and individuals from different parts of the world; on the other hand, to encourage schools to accredit themselves in the LMHI. The exchange aims to be a benefit that the LMHI provides to its associates.

Once the document was designed, its implementation was carried out. For this purpose, a pilot project was designed, a first exchange with the main objective of testing the detailed guidelines in the elaborated program.

“The pilot project was to be carried out between two countries that shared the same native language; it had to be a

short-term exchange in order to present the results at the 2023 Bogota congress. Thus, two schools from Spanish-speaking countries were chosen: the Homeopathy School of Mexico and the Argentine Homeopathic Medical School “Tomas P. Paschero”

Dr. Agustin salinas

The NVPs of each country collaborated in an initial meeting attended by the directors of each institution to exchange programs, schedules, ideas, and define which students, from which course, would attend the exchange, for how long, and at what times.

The exchange lasted for one month and was coordinated by Dr. Agustin Salinas, responsible for the design and execution of the exchange program.

For four weeks, students from both schools participated in the exchange. The conclusions were positive despite the short time available for organization and the limited number of participating students. Most agreed that in-person exchange is preferable; the time difference between Mexico and Argentina (three hours) sometimes made it difficult to coordinate classes, which were either too early or too late respectively. Hence, the importance of in-person interaction to resolve these issues.

Undoubtedly, the exchange program has proven to be useful and applicable. However, it is necessary to carry out more exchanges, longer or shorter, between different countries, in order to correct through the reports that they provide, those points that allow improving the quality of the experience.

## DESIGNING THE DOCUMENT

*Writing phase:* Design of a standardised document which serves as a guideline to promote Exchange between individuals and/or institutions.

The challenge of standardisation: "individual" vs. "institutional" members; Appendixes and forms

**"MOVE FORWARD.  
GOOD THINGS ARE  
UP AHEAD."**

# NEXT WEBINAR

Dentistry, Saturday, April 13 with Dr. Gloria Feighelstein

I will be discussing Homeopathy in Dentistry Specialties, providing insights into Homeopathic Constitutions and the application of Homeopathic Remedies for preventive dental care. Additionally, I will delve into the global history of Homeopathy in Dentistry, its contributions to public health, and more. We offer graduate and postgraduate programs in Dentistry at various universities, primarily in Latin American countries such as Brazil, Argentina, Chile, and Mexico. In Brazil, we've dedicated over thirty years of hard work to establish and teach these courses. Since 1999, my colleagues and I from the Hahnemannian Brazilian Institute - IHB, have been sharing our knowledge during LMHI Congresses, engaging with homeopathic practitioners worldwide, including those from Latin America, as well as from countries like Bulgaria, Turkey, Greece, Romania, Russia, Poland, and many more. Please remember that my involvement in LMHI Dentistry began in 1999! I look forward to seeing you all at the webinar!

# OFFICIAL WORLD HAHNEMANN DAY CELEBRATIONS OF THE LMHI IN MEXICO

At the last International Council Meeting in Bogota, Colombia, Mexico offered to host the World Homeopathy Day celebration. LMHI President Dr. Altunay Agaoglu will travel to Mexico City to commemorate the 269th anniversary of Samuel Hahnemann's birth. In Mexico, the National and International Forum: "Homeopathic Medical Education from the Perspective of Current Education" organized by the National School of Medicine and Homeopathy and the Postgraduate School of Homeopatía de México will be held April 8-10, as well as Homeopatía de México will hold an event where homeopathic physicians, students, and patients will attend. In addition to the president, several NVPs and LMHI members will attend in person and the Latin American Group of NVPs will attend virtually. We hope it will be a success.

"We hope to see you join us virtually through our social platforms"

# INVITATION FOR LMHI CONGRESS 2024

Dear professionals, patients, users and friends of homeopathy:

Commemorating the centenary of the proposal for the creation of the LMHI at the International Congress of Homeopathy held in 1924 in Barcelona (Spain), the National Assembly of Homeopathy (ANH) has made the commitment to organize the LMHI congress for 2024.

The city chosen as the venue, Seville, has among other merits, being the birthplace of Dr. Prudencio Querol, pioneer of Spanish Homeopathy with its successful homeopathic treatments for chronically ill patients carried out in the hospital San Sebastian de Badajoz during the years 1832-1838 and during the cholera epidemic suffered in the city of Extremadura.

Under the slogan "United to continue advancing", we are organizing a congress that covers the various aspects of Homeopathy: research and science, regulation and rights, teaching and professionalization, clinical, theoretical bases and historical development, professional development: doctors, pharmacists, veterinarians, dentists. Other aspects related to homeopathy that will also be addressed at the congress will be agrohomeopathy and its contribution to public health by improving plant and animal production in achieving healthier food, reducing global pollution and improving global health within the ONE HEALTH concept.

## I INFORM YOU THAT THE REGISTRATIONS ARE OPEN NOW !!!!

You can see it on the LMHI2024.org website. Early registration has significant discounts: January-February 20%, and March-April 10%. for individual registrations. If registration is done in a group of ten attendees, there will be an additional 10% discount. On the other hand, the fee can be divided into three payments without any increase. We have adjusted as much as possible so that "United all to continue advancing" can be possible in Seville.

For any additional information, you can contact us by email  
[lmhi2024@bcocongresos.com](mailto:lmhi2024@bcocongresos.com)

Fraternal embrace,

Jose Luis Jiménez Sales  
NVP Spain,  
General Coordinator of  
the Organizing  
Committee of the  
77th LMHI Congress
